

Naiad 11.3 Triple Outboard

The 11.3 Naiad Police vessel is designed to be a high speed craft with full search and rescue capabilities. It features:

- Stepped Hull
- Large enclosed crew cabin
- Dedicated SAR planning navigation station
- Triple outboards
- D shape fenders

Two of these craft are being used in Australia by the Queensland Police as Patrol boats in the Gladstone and Brisbane areas. These boats use Naiad's popular 11.3m stepped hull, with a large enclosed crew cabin. The same Naiad stepped hull technology is also used in the 9m and 10m Coastguard boats and many of the 12.5m tourist boats.

Both boats are powered by triple 300hp outboard engines, and the cabins feature a dedicated SAR planning navigation station positioned aft of the two main crew positions. These stations are popular on the larger Naiads used by Coastguard in New Zealand.

Specifications

Length O/A	11.3 metres
Beam O/A	4.2 metres
Beam Internal	3 metres
Tube Diameter	600 mm
Engines	2 x Yanmar diesel inboards
Power	2 x 370hp
Propulsion	2 x Hamilton HJ322 waterjets
Weight dry	7500 kgs
Speed	30 knots cont. 36 knots max.
Crew	4
Fuel tank capacity	900 litres
Range	300 nautical miles
